

POST-16 SEARCH CONFERENCE 14TH NOVEMBER 2008

THEME	KEY ISSUES	STICKY DOTS	AGREED STATEMENTS
BUSINESS	Keeping dairy farming alive in the island	28	<ul style="list-style-type: none"> Without it we would have to import – expensive Market in Guernsey cows Increase dairy workers salary Increase price of dairy products Quality Stop tethering cattle – happy cows produce more milk Invest money in the dairy industry
	Providing better shops and more choice for shoppers	30	<ul style="list-style-type: none"> Big shopping centre – better shops – more choice Top Shop, Primark, River Island
	Keeping up with new technology and other global changes	20	<ul style="list-style-type: none"> More mobile phone operators Keep in time with China
COMMUNITY AND SOCIAL	UK Franchises (themed eatery for young people)	26	<ul style="list-style-type: none"> Making it more appealing for UK chains Encourage local businesses – loans/grants Invest in island businesses No monopolies from UK chains Limit who can trade/limit size of stores High rates to discourage some UK companies From school – young people encouraged to start-up
	Skate park	23	<ul style="list-style-type: none"> Re-invest in Delancey Park Talk to the skaters and ask them what they want Do more teen group things for different groups not just religious groups or 'club' nights Cinema – limit what can be charged Discounts for student entry fees e.g. Beau Sejour
	Making use of schools that are no longer needed for education	26	<ul style="list-style-type: none"> Hire out to companies for bonding exercises Hire for parties Hire out to businesses/start-ups at a cheap price – sell to businesses Training courses over holidays and weekends Hire pool/gym Use as a place of adult education (Mont Varouf)
FUNCTIONAL	Sorting, re-using and recycling more waste	31	<ul style="list-style-type: none"> We need more kerbside recycling to encourage people to recycle Limit the number of general waste bags. Enforce fines for people who do not comply
	Increasing the level of renewable energy production	26	<ul style="list-style-type: none"> Tidal power Use French produced nuclear power Promote Guernsey's tidal power potential to big companies who might want to invest in this venture
	Coping with traffic growth	23	<ul style="list-style-type: none"> Limit cars per household Make buses more regular Encourage people to car share/pool Mono-rail Underground car park
ENVIRONMENTAL	Using States owned property effectively and efficiently	32	<ul style="list-style-type: none"> Look in more detail at the people who want States housing – how much their earning etc Make it easier for the public to use the properties Involve the public more with the building and the use of the properties
	Looking after buildings and places of historic importance	29	<ul style="list-style-type: none"> Turn the historical areas into more people friendly areas e.g. accessible to the public. More attractive for the community and for tourists
	Improving the quality of public places (e.g. streets, squares, footpaths)	28	<ul style="list-style-type: none"> Improve the quality of the roads. Be more efficient when doing repairs e.g. closure times Make people-friendly areas, safety when walking, more lighting in certain areas
OTHER	Making the island more attractive for visitors	14	<ul style="list-style-type: none"> Encourage greater investment in St Peter Port harbour Improve management of litter (particularly St Peter Port)
	Providing enough homes	19	<ul style="list-style-type: none"> Population (dependency ratio) – jobs – efficiency More investigation into what housing is needed – land management Energy efficient housing – sustainable development
	Improving sea water quality	19	<ul style="list-style-type: none"> Why waste rainwater? Sewage treatment plant = 1 cost covers all, will be more expensive later anyway Belle Greve Bay redevelopment
