

GOOD, BAD OR UGLY BECAUSE ...

Bad – most folk are afraid to walk near the golf balls.

Bad – competing land use demands and this needs lots and excludes majority.

Bad – very poor use of space.

Bad – common ground belongs to the people, not to an unelected group of individuals that decide what can and can't be done there.

Bad – we don't need Florida style golf courses. Allow more natural vegetation on fairways and manage greens.

Dire for wildlife.

Good – "common" was owned by individuals who delegate commons council to manage it on their behalf.

Good – healthy recreation and environment.

Good – stay this way.

Good if in balance with 'countryside'.

Another golf course at Ramée area, poor ordinary people.

Lovely and picturesque.

Dangerous – golf course!

Good way to take life slow and relaxed.

... IN THE FUTURE WE SHOULD ...

In future allow the Vale Earth fair collective to hold events at the kiosk in order to raise money for charity instead of threatening to arrest everyone that attends.

Allow local non-members access to RGGC.

Authorise building of another golf course (good for tourism).

Keep it – don't build a theme park.

Theme park.

If the demand is there, why not have another course.
