

GOOD, BAD OR UGLY BECAUSE ...

Bad – breeds arrogance and contempt for society in the youth.

Destroys people's peace – in the long-term repeated by many can affect mental health and children's performance at school.

Fine when in competition – a danger when not.

Just irresponsible behaviour.

Bad – wrong place for speed.

Bad – not in context of a proper event.

Bad and ugly – death.

Good to watch for all ages! Only occasionally run so not bad for environment.

Bad because it's a waste of petrol even if it's occasional.

Good – Guernsey TT is a good idea

Good – cater for as much recreation as possible using locations that are available.

Nothing against motorbikes but teenage learners are something else.

... IN THE FUTURE WE SHOULD ...

Motorbikes – too many noisy bikes. Stop them somehow! Young kids on motorbikes – frequently do not know how to treat other road users. They pass too close.

Control speed and noise of traffic.

We must preserve our sense of community.
