

**GOOD, BAD OR UGLY BECAUSE ...**

Good – endless free entertainment for all.

Good at all times – particularly when children on the beach!

Bad in the summer when children on the beach.

Beaches – tourist attractions, should be looked after.

Sewage.

Ugly – water pollution impacts tourism and recreation.

Good – wartime monuments – preserve as part of our heritage.

Good – beaches need to be easily accessible and clean.

Bad – not enough water-based leisure activities.

**... IN THE FUTURE WE SHOULD ...**

Dogs create a lot of disturbance – need to be legally limited so that wildlife has space too.

Move bins – provided to prevent litter being dropped – lazy people will not walk to bins at the top or far from where they are sitting.

Protected – kept clean and safe.

Dog friendly beaches.

Maintain wartime monuments

Ensure land-use policies enable protection of countryside and allow public access to such areas.

Keep development to appropriate, more developed areas.
