

**GOOD, BAD OR UGLY BECAUSE ...**

We don't need more of this style.

A good use of a limited site – partially hides the ugly OGH hotel.

Bad – not in keeping with Guernsey.

Wonderful.

Bad – totally out of keeping.

Good – because it respects the 'vertical' nature of town's development.

Horrible – resembles – inappropriately – a glasshouse.

Good - looking to the future.

One of the best examples of modern architecture.

Good, modern, aesthetically pleasing. Good for economy, jobs. More effective work.

Good – redevelopment creates new jobs.

Too much glass and steel.

Overdevelopment.

In the right place this would be OK.

Good – modern offices suggest modern industry.

Depends on functionality of the building.

Good – modern architecture & excellent working environment.

Neither good nor bad – out of sync with surrounding buildings.

Ugly – not eco-friendly

Ugly – not suitable for island but for city (could be anywhere).

**... IN THE FUTURE WE SHOULD ...**

Encourage this sort of thing.

Be proactive in seeking new business to Guernsey.
