

GOOD, BAD OR UGLY BECAUSE ...

Ugly bins – though some are necessary but kerbside recycling a far better option. Not more expensive if properly done.

But not enough places to recycle cardboard and it's a long way with the cycle trailer.

Kerbside recycling please. Bring banks spoil too many places.

Good – recycling needs to be mandatory not optional.

Recycling – good; system and amount – bad.

Bad – next to beaches and otherwise picturesque spots.

Necessary evil – balance about right.

Ugly and unsightly.

Good – we need to recycle more.

Ugly but necessary.

Don't look too hot – but essential.

Sink bins below ground level.

Re-cycling facilities are quite impressive, although not always attractive.

Lots more recycling, facilities are more attractive.

Kerb-side recycling.

Good – better than a big chimney.

Ugly – needs a more out-of-the-way place.

Good – bring bins in car parks are fine – it is a nonsense to try to hide them.

... IN THE FUTURE WE SHOULD ...

Kerbside recycling, at least in St. Peter Port where many people do not have cars.

Have kerbside recycling.

At the very least put reclamation bins behind a fence or wall.

Good idea, bad location.

Recycling mandatory.

Find a better way of doing this.

Recycling bins need brightening up.

More facilities – advertise more.

Expand all recycling projects.
