

## WORKSHOP ON 9<sup>TH</sup> June 2009 AT BEAU SEJOUR

### CAROUSEL

#### GREEN (GROUP 1) IDEAS

##### Common ideas

1. More local food production.
2. 'Village'/community-based development in other centres (e.g. Cobo).
3. Redevelopment/re-use of building.
4. Smaller/narrower buses.

##### Conflicting ideas

1. Too focussed on people who live in those 'ideal' areas ('villages'), but many people live in the urban areas.
2. Restrictive traffic proposals – parking in Town – redistribution in favour of cycles/buses.
3. Grazing versus tree planting.
4. Location of wastewater treatment facility.
5. Localised production of renewable energy (emphasis on micro **not** macro).
