

## WORKSHOP ON 9<sup>TH</sup> June 2009 AT BEAU SEJOUR

### CAROUSEL

#### FOCUSSED (GROUP 4) IDEAS

##### Common ideas

1. Re-use empty buildings (housing, offices etc.) and fringe areas of Town.
2. Eco-friendly, community based development to support smaller communities/local centres.
3. Anaerobic digester facilities.
4. Micro-renewable energy (e.g. ground or air source heat pumps, solar panels) opportunities.

##### Conflicting ideas

1. Too environmentally orientated and focussed on 'village' aspects.
2. Traffic restrictions.
3. Waste disposal system.

##### Innovative ideas

1. Marine reserve.
2. Localised energy production
