

WORKSHOP ON 9TH June 2009 AT BEAU SEJOUR

CAROUSEL

FOCUSSED (GROUP 4) IDEAS

Common ideas

1. Re-use empty buildings (housing, offices etc.) and fringe areas of Town.
2. Eco-friendly, community based development to support smaller communities/local centres.
3. Anaerobic digester facilities.
4. Micro-renewable energy (e.g. ground or air source heat pumps, solar panels) opportunities.

Conflicting ideas

1. Too environmentally orientated and focussed on 'village' aspects.
2. Traffic restrictions.
3. Waste disposal system.

Innovative ideas

1. Marine reserve.
2. Localised energy production
